Contact: 9423208724, 9423208723.

Ferruccio was originally a farmer who made tractors. His business was very successful and he was among the most wealthy in Italy. He owned Ferrari among other super cars. The Ferrari used to give him constant trouble. Being a mechanic, he tried to fix the problem and found out that his Ferrari had the same clutch as used in one of his tractors.

"All my Ferraris had clutch problems. When you drove normally, everything was fine. But when you were going hard, the clutch would slip under acceleration; it just wasn't up to the job." Ferruccio went to the service guys regularly to have a clutch rebuilt or renewed, and every time, the car was taken away for several hours and he was not allowed to watch it being repaired.

Contact: 9423208724, 9423208723.

The problem with the clutch was never cured, so Ferruccio decided to talk to Enzo Ferrari. He had to wait for him a very long time. 'Ferrari, your cars are rubbish!' Ferruccio complained. Commendatore was furious. "Lamborghini, you may be able to drive a tractor but you will never be able to handle a Ferrari Properly.'

This was the point when he finally decided to make a perfect car. Yes, Lamborghini. It's easy to look at these company and think, "We could never do something like this." Of course, all of these companies took decades to get where they are today. But they had an idea and they believed in it and most importantly, they started..
